Endless Possibilities

With the LaCie Box, it's easy to store your movies, music, and photos—simply by inserting a hard disk. No configuration is required, and you'll save time and money by avoiding burning CDs and DVDs to hold all your media. The LaCie Box offers all of the best features of other external hard drives on the market and even more: with the included USB Boost* technology, transfer speed is optimized and performance is improved by up to 33%. All available at a reasonable price, and an expandable, customizable form factor with an award-winning design by Neil Poulton.

Easy to Use

The LaCie Box offers an intuitive, practical solution for storing and sharing your files. Simply insert a SATA 3.5" hard disk (5400 RPM recommended), and instantly be able to store all of your important files. With the included LaCie Backup Assistant software, it's simple to back up your photos, media files, and email, as well as keep your personal files and folders in a secure location.

Designed for Flexibility

The design of the LaCie Box, from award-winning product designer Neil Poulton, echoes our popular LaCie Hard Disk line, but with an important difference—by allowing you to insert the hard disk, we've provided a great way for you to instantly create your own hard disk, with the format and capacity of your choosing.

Get the Most From Your Disks

In addition to being easy to use, the LaCie Box provides convenience, as well as a new life for your old hard disks, allowing you to reuse them, all while providing a stylish, sophisticated casing, and an easy backup solution.

- Customizable case lets you create your own external hard drive
- Reuse your 3.5" SATA drives
- Sophisticated, fanless casing designed by Neil Poulton
- User-friendly opening system

box
