d2 Quadra USB 3.0

DESKTOP DRIVE
Data Sheet

The Professional Choice for Storage—with USB 3.0.

- Universal connectivity and compatibility
- Professional grade: 5Gb/s interface, 7200-RPM drives
- Save space: stackable and rack-mount option
- Advanced power modes for energy savings

design by neil poulton

Performance and Reliability

With the new USB 3.0 5Gb/s interface and up to 6TB capacity, the LaCie® d2 Quadra desktop drive is the ideal tool for creative professionals who need both fast speeds and large storage capacity. It features 7200-RPM drives with a minimum of 32MB cache for impressive performance and seek times, so it can handle the most resource-intensive applications. Best of all, it can achieve speeds up to 130MB/s in USB 3.0.

Cross-Platform Applications

The d2 Quadra has the latest connectivity with USB 3.0 and two FireWire 800 interfaces for daisy chaining, but it is still fully compatible with eSATA 3Gb/s, USB 2.0 and FireWire 400. It's even USB 3.0-compatible on Mac® computers, thanks to LaCie's USB 3.0 driver for Mac OS. With all of its interfaces, the d2 Quadra has universal connectivity, so it's easy to back up and restore any workstation, no matter the configuration and interfaces. And thanks to the USB 3.0 performance, you can make faster, more frequent backups of your data, keeping it safe and secure. Since the d2 Quadra tops out at a 3TB capacity, it can even be used as a simple and convenient storage expansion for a server.

d2 Quadra USB 3.0
